Narratives of Women: **Abraham/Ibrāhīm's Legacy**

Abraham is the esteemed patriarch of Jews and Arabs and the spiritual father of Christians. Our three religions include many wonderful stories of Abraham.

This evening, we plan to focus on the vital roles of the women in Abraham's life - his wives, and the mothers of his children. These women - all spiritually significant in their own right - and their children, are pivotal to the unfolding stories of our faiths.

We have three speakers - one from each of the three Abrahamic religions - who will introduce the stories from their traditions and explore their past and contemporary meanings.
